Project

Full Stack Developer

Tic-tac-toe

24/11/2023 – 25/11/2023

Develop a responsive and interactive Tic-tac-toe web application.

Technologies Used: HTML, CSS, JavaScript.

Challenges: -

- Ensuring cross-browser compatibility and responsive design.
- Implementing user authentication securely.
- Designing an intuitive user interface that is easy to navigate.
- Handling data storage efficiently, especially if using local storage.

Full Stack Developer

Weather App

10/12/2023 – 13/12/2023

Technologies Used: HTML, CSS, JavaScript, Bootstrap.

This feature provides accurate weather information based on location. This app will also provide rain forecast, humidity information, maximum and minimum temperatures of the day and hourly temperature for a location.

Challenges: -

- Ensuring cross-browser compatibility and responsive design.
- Designing an intuitive and engaging user interface.
- Optimizing the website for speed and performance.

Full Stack Developer

Portfolio

10/01/2024 – 11/01/2024

Introduction about yourself, your skills, experience, and professional journey. Gallery or list of projects with descriptions, images, and links to live sites or code repositories.The website should be accessible and functional on various devices and screen sizes.

Challenges: -

- Designing a unique and memorable personal brand.
- Showcasing work in a way that is appealing and easy to navigate.
- Ensuring the website is SEO-friendly to increase visibility.
- Implementing a responsive design that works across all devices.

Career Objective

Entry-Level Full Stack Student Set to graduate early in May 2024, versed in solving technical Issues with latest industry-specific tools.
